Teaching Experience

Salt Lake Community College

Program Director/Assistant Professor

03/2018-01/2020

Job Duties: Coordinating and enhancing the Respiratory Therapy program initiative, including training students and faculty, coordinating the respiratory labs, designing training materials, coordinating respiratory assessment projects, furthering respiratory best practices among students and faculty, and represent the respiratory initiatives externally.

1. Provide leadership, coordination, and professional contributions to the Program, Division, School, and College.
2. Maintain in-depth understanding in chosen field which includes participation in professional development and maintenance of valid training status.
3. Attend regularly scheduled departmental, divisional and committee meetings & workshops.
4. Technologically literate, knowledgeable, and innovative in the use of a variety of modern teaching technologies including the use of computers and multi-media in lectures, laboratories, and distance learning environments.
5. Maintain a positive attitude toward work, students, colleagues and administration.
6. Oversee the attendance of new faculty attendance at orientation sessions concerning college policies, procedures, and facilities.
7. Assist in hiring both full-time faculty, adjunct faculty, & part-time staff as needed.
8. Assist new and continuing students in advisement capacity on courses and programs.
9. Develop and maintain articulation agreements with local applied technology centers and universities.
10. Assist and advise students in professional and student organizations.

11. Prepare course syllabi, outlines, daily plans, and associated materials.
12. Develop and implement strategies to enhance the quality and effectiveness of courses including curriculum development and review.
13. Maintain necessary records such as program and class enrollments; plus grades of student performance.
14. Assist in the preparation of appropriate college documents such as catalog, handbook, brochures, etc.
15. Actively assess program to determine effectiveness and meet all accreditation standards as defined by the Commission on Accreditation for Respiratory Care (CoARC).
16. Manage and verify operational processes and procedures such as teaching assignments, faculty loads, class and room schedules, class changes, etc.
17. Knowledge of FERPA guidelines and other pertinent federal regulations. Assists in maintaining a safe and secure campus environment.
18. Management of budget.
19. Ordering, tracking, and maintaining inventory.
20. The ability to work with all groups in a diverse academic, socioeconomic, cultural and ethnic background of community college students, faculty and staff, including those with disabilities and special needs.
21. Excellent oral and written communication skills and proficient in Microsoft Office Suite.

Director of Clinical Education/Assistant Professor

08/2017-03/2018

1. Function as an instructor and program clinical coordinator for the Respiratory Care program; teach assigned classes in theory, classroom, laboratory, and clinical instruction.
2. Fulfill the professional responsibilities of a full-time faculty member including, but not limited to the following; teach scheduled classes; follow department course outlines; keep accurate records of student enrollment, attendance, and progress; perform student clinical evaluations, post and maintain scheduled office hours; participate in department and division meetings and college and/or district wide activities and committees as assigned.
3. Function as Respiratory Care Program Director of Clinical Education.
4. Ensure and maintain compliance of clinical program following CoARC standards. Includes communication and preparation of reports with appropriate agencies as well as the district and college administration.
5. Maintain program course student learning outcomes and assessment process, assist in program review process.
6. Assure clinical inter-rater reliability standards.

7. Responsible for organization, administration, continuous review, planning, development, and general effectiveness of clinical experiences to include clinical evaluations, physician contact, student assignment, and clinical records.
8. Maintain ongoing communication and site visitation with all active clinical sites.
9. Responsible for curriculum according to national standards, state and local regulations - course development, updates, planning, revising, implementation, and evaluation.
10. Maintain current knowledge of the professional discipline and educational methodologies through continuing professional development.
11. Recommendation of clinical affiliations and the assurance of instructional quality of clinical education by regular visits to clinical education centers.
12. Coordinate the scheduling of classes, including the recommendation of part-time assignments to department IUA/Chair and Division Dean.
13. Communicate with state and national professional associations.
14. Work cooperatively toward mutual goals with other program coordinators and with the School of Allied Health Professions Faculty.
15. Recommend the purchase of equipment and supplies and coordinate repair of lab equipment to assure program quality.
16. Develop instructional innovations to ensure program success.
17. Assist with program outreach, including publicity, community relations, advisory committee membership and meetings, external funding opportunities, and campus events.

Independence University

Full-Time Senior Faculty – Online Instructor

06/2011-09/2017

Job Duties:

Employed as a full-time faculty member in the Respiratory Therapy Department. Duties include:

1. Teaching the entire range of biology and respiratory core courses from beginning to advance.
2. Responsible for instructing and implementing respiratory competencies for students in an advanced care practitioner program.
3. Help students develop critical thinking skills necessary for effective clinical practice. Basic duties involve instruction, lecturing and grading student assignments, discussions, and exams.
4. Redesign of all courses in our program, including selecting textbooks, creating learning objectives, creating syllabi, and other associated materials for each course.

5. This position has involved close involvement with the Dean and making sure our program meets the standards of CoARC.
6. Program coach responsible for training new faculty.
