Utah Public Health Association

To the UPHA Hiring Team:

I have heard a number of very positive things about the Utah Public Health Association and I would like to be considered for the position of Community Health Worker (CHW) COVID-19 Project Coordinator.

I am sure that I will benefit significantly as a result of gaining more experience from this position. However, I feel certain that I will be a productive asset to your association, in whatever assignment I am given as a CHW Project Coordinator, due to my long-term experience working with underserved and underrepresented communities as a CHW.

My past, current job, voluntary work, and duties as a CHW include health prevention and promotion within multiple underserved communities. In my collaborations with various partnerships, I have strengthened the sustainability and infrastructure of many organizations. Such as, working with the refugee population on training and securing partnerships with other organizations by supporting community messaging regarding the COVID-19 pandemic. I have also worked with the Utah Department of Health to promote the CHW Core Skill training and coordinated various partners and employers to identify and enhance CHW roles and opportunities.

I look forward to learning more about this amazing UPHA CHW COVID-19 Project Coordinator position and sharing my CHW experiences and techniques with you during an interview.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely

Valentine Mukundente
